

TRUNNION BALL VALVES

- **Side Entry**
Split body
Fully Welded body
Modular body
Control valve

- **Top Entry**
Bolted bonnet
Modular body
Control valve
Rising stem non-contact

- **Multiple Way**
3-way
4-way
6-way

FLOATING BALL VALVES

- **Side Entry & Top Entry**
Threaded body
Split body
Seal Welded body
Modular body

INDUSTRY APPLICATIONS

High Temperature valves
121° to 1100°C
(249,8° to 2012°F)

Low Temperature valves
0° to -50°C
(32° to -58°F)

Cryogenic valves
-51° to -196°C
(-59,8° to -320,8°F)

High pressure valves
Design pressure from
20 bar(g)
to 1035 bar(g),

Subsea valves
Down to 3000m (10000ft)
Water depth

**Low cavitation &
Low noise**

ERREESSE, established in 2004, is a manufacturing company based in the Northern Italy, Grignasco, a nice town in the green Valsesia (Sesia Valley), along the enchanting Sesia River, 35 minutes far from Milano Malpensa.

Hard work, passion and smart attitude, always the best solution at the right time together with the development of new technologies, the know-how and the expertise of our team resulted in an ongoing success which makes us a reliable supplier. Our target and mission is to supply a high performance Italian product and a customized service committed to excellence and Customer Satisfaction. ERREESSE offers a reliable combination of Made in Italy, short deliveries and API, ISO, PED & SIL accredited production range and in-house testing services.

Our manufacturing program includes nickel alloys, duplex, super duplex, titanium, aluminum-bronze, 6-molibdenum, stainless steel and carbon steel metal and soft seated **On/Off, Control & Transfer Ball Valves in Top entry and Side entry constructions, with Split, Fully Welded, Multiple way, Modular or Integral dual ball (DBB) body** engineered to withstand and exceed the high risk industry applications in the Oil & Gas, Petrochemical, Chemical, Marine, LNG Onshore & Offshore Industry, on topside and subsea installations worldwide.

INDUSTRIES SERVED

- Oil & Gas Upstream, Midstream & Downstream
- LNG & Natural Gas
- Power Generation
- Refining
- Chemical & Petrochemical
- Mining & Drilling
